Summary

I take customer systems from discovery to deployment and support them in production.

Skills

- Linux, Bash
- AWS, Docker
- TypeScript, Node.js
- Monitoring, troubleshooting

Professional Experience

Founder / Product Engineer / Systems Lead

Technomancy IT LLC

Present

- Own discovery, deployment and production support for client software and infrastructure.
- Use logs, service checks and HTTP diagnostics to isolate failures and verify user-facing recovery.

Senior Systems Engineer / Datacenter Architect

Front Range Internet Inc.

2015 - 2020

- Led NOC operations and engineering escalations for hosted services and colocation customers.
- Built diagnostics and handoff tools for operators and hosting clients.

Systems / Software Engineer

Office Evolution

2014 - 2015

- Built Node.js provisioning around a Linux router for separate customer office networks.
- Built a front-desk interface for routine Wi-Fi troubleshooting.

Network & Systems Engineer

PlumChoice / Everon

2012 - 2014

- Supported small-business networks and endpoints, handled on-call escalations and built repeatable diagnostics.

Infrastructure and Systems Focal

IBM

2010 - 2012

- Wrote scripts in Perl, Bash, VBA and PHP; built an internal backup tool that reduced reliance on paid licensing.

Selected Projects

NuPrice

Long-term client product

- Built and operated a marketplace repricer and owned customer support, billing and monitoring.

Excell IT: Client Infrastructure

Client engagement

- Supported Windows Server, Active Directory, VPN and a satellite office connection.

Technomancy IT: Release and Recovery

Own practice platform

- Built container health checks, public HTTP checks and a PostgreSQL restore checker.

Education

Front Range Community College

Computer Science coursework

2011 - 2013
